

Linguatec Voice Reader: Installation and activation (by web browser)

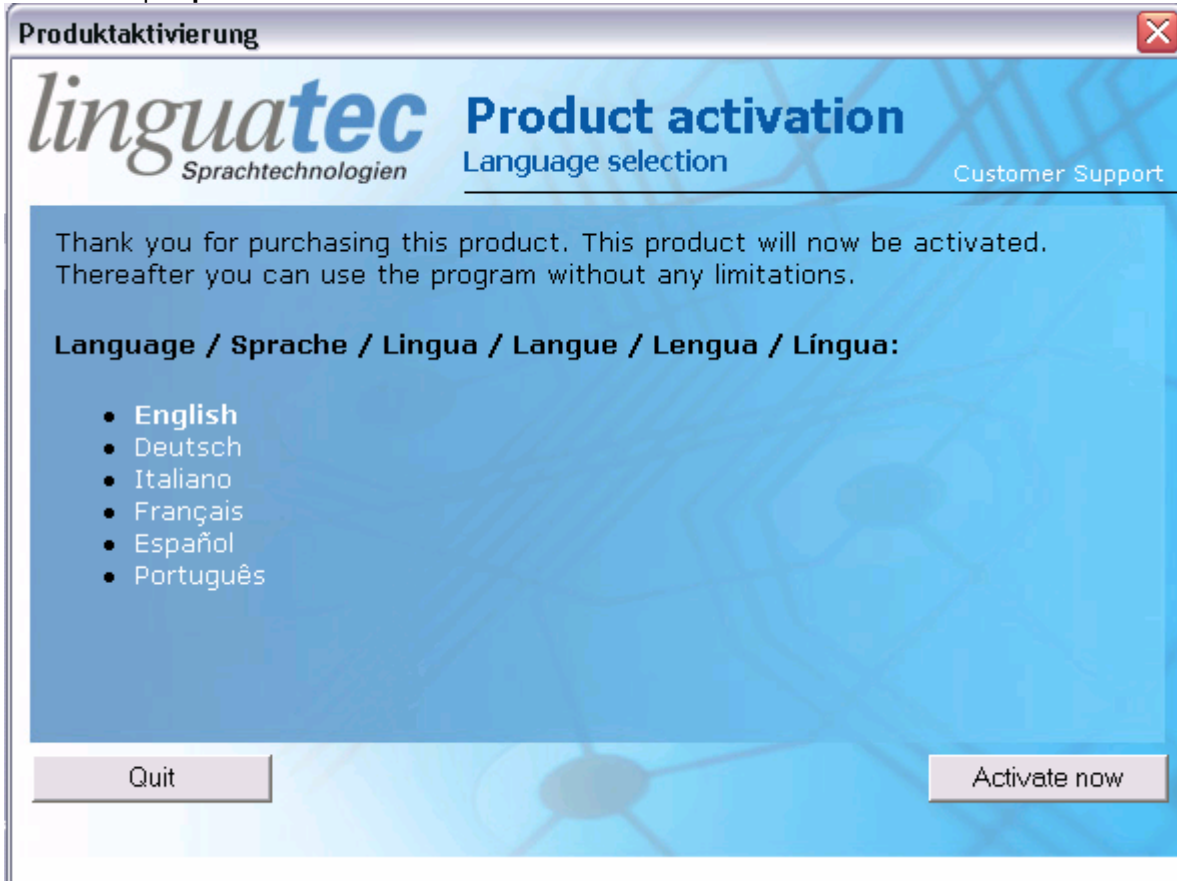

Insert the Linguatec Voice Reader installation CD into the CD-ROM drive.

Installation usually starts automatically.

If installation does not start automatically, run the **setup.exe** program manually.

To do this, open the CD-ROM file folder and run the file setup.exe by double-clicking it.

The first step is **product activation**.

Select the required language.

Then click the "Activate now" button.

linguatec Sprachtechnologien **Product activation**
 Entering the activation code Customer Support

Please now enter the **activation code**, fill out the form and then click on 'Next'. You normally **find the activation code** on the CD or it is displayed in the order confirmation in the browser immediately after purchasing, or you receive it by email from the dealer. If you have not yet received it, please contact the shop operator where you purchased the product.

Activation code:

Title: **First name:** **Last name:**

Email address: **Country:**

Please send me further information about updates of linguattec products

VoiceReader 07 Jun 2006 18:33

Enter your activation code in the "Activation code" field. You will find it on the white sticker on the CD cover. Complete the form by entering your first and last names, your e-mail address and your country in the corresponding fields.

Then click "Next".

If your PC does not have a direct Internet connection, please activate the option: "Activation via web-browser"

linguatec Sprachtechnologien **Product activation**
 Selection of activation methods Customer Support

A variety of possibilities are available for activation. The quickest and easiest way is the automatic activation via Internet. A functioning Internet connection to the authorisation server is a precondition for this.

Activation method:

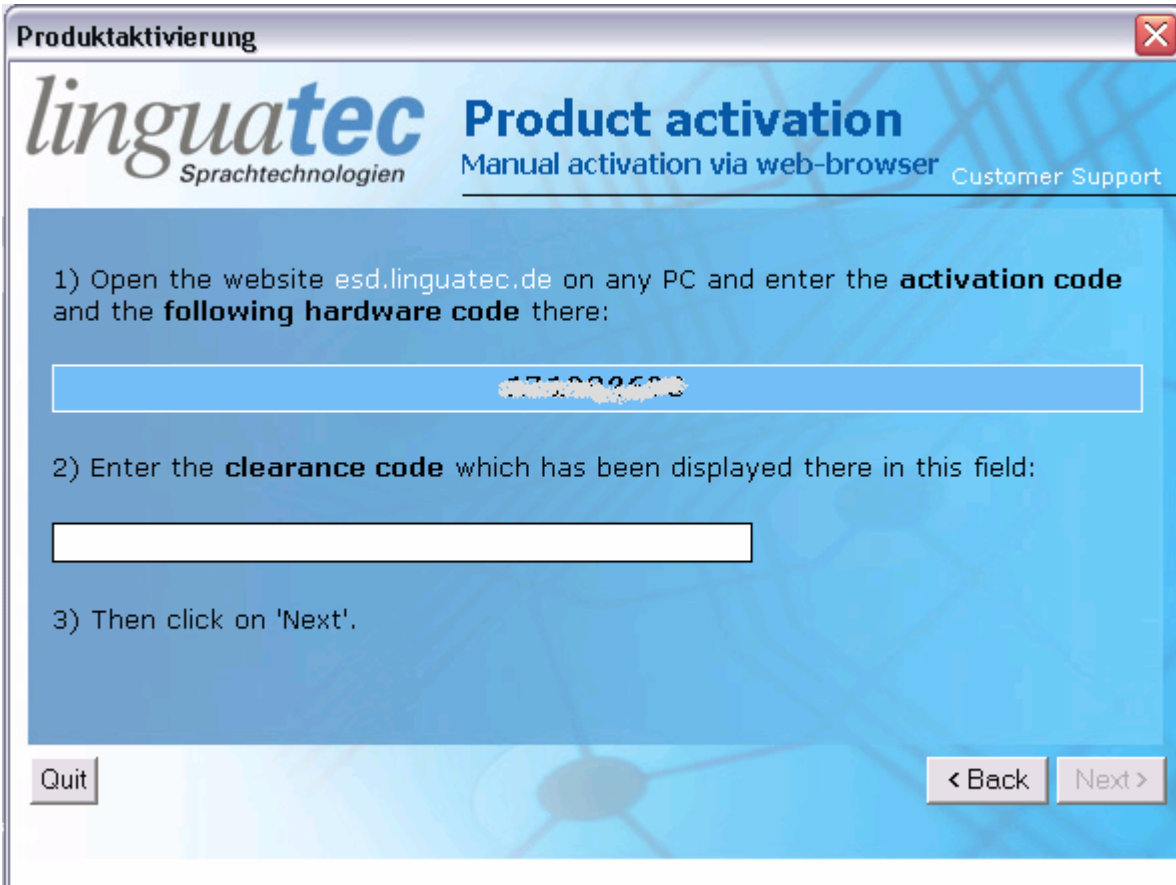

- Automatic
- Manual activation via web-browser** [X]

Use this method if the automatic authorisation does not work or if you want to use the program on a computer that is not connected to the Internet.

You will require a computer with Internet access for manual activation (e.g. at your workplace or at a friend's house). Activation can be carried out immediately and the program can be subsequently used straight away.

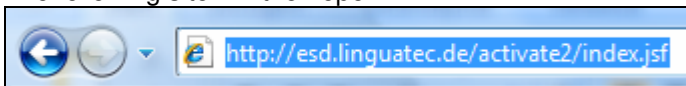

Then click "Next".

A new window opens which displays the hardware code of your PC. Please note this code.

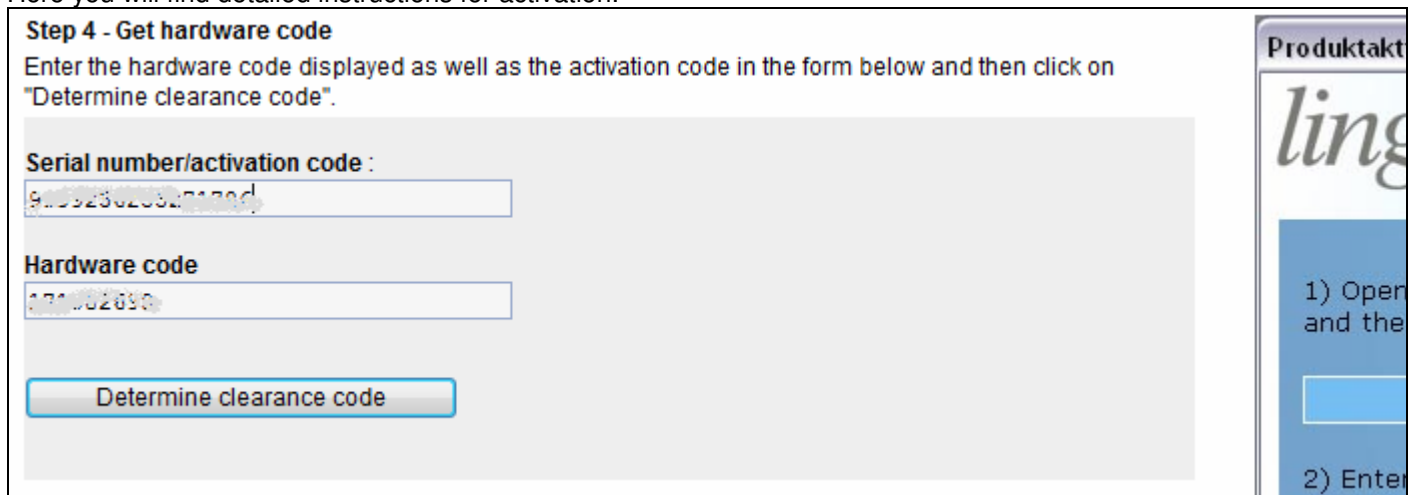

Please switch to a PC with an Internet connection. Open a browser (e.g. Internet Explorer) and enter the address www.esd.linguatec.de.

Ensure that there is a connection to the Internet. The following site will then open.

Here you will find detailed instructions for activation.

When you reach Step 4, please enter the activation code on the left. You will find this code on your CD cover. The code has 16 digits.

Then enter the hardware code of the PC on which the Linguattec Voice Reader is installed. Please consult the activation dialog (see above for more details). The code has 9 digits.

Then click "Determine clearance code".

A new window will open.

Product activation

The checking of the activation code/serial number was successful.

Your clearance code is:

1000510005

Step 5 - Finish activation

Enter the clearance code above in the entry field shown on the right and then click on "Further >".

Wait until the entries have been confirmed and finally click on "Complete".

The product is thus activated and cleared for usage. You can now use it without any limitations.

Please note **your** activation code.

Now switch to the PC on which Linguatec Voice Reader is installed and enter the activation code (9-digit) into your activation form.

linguatec Sprachtechnologien **Product activation**
Manual activation via web-browser Customer Support

1) Open the website esd.linguatec.de on any PC and enter the **activation code** and the **following hardware code** there:

2) Enter the **clearance code** which has been displayed there in this field:

3) Then click on 'Next'.

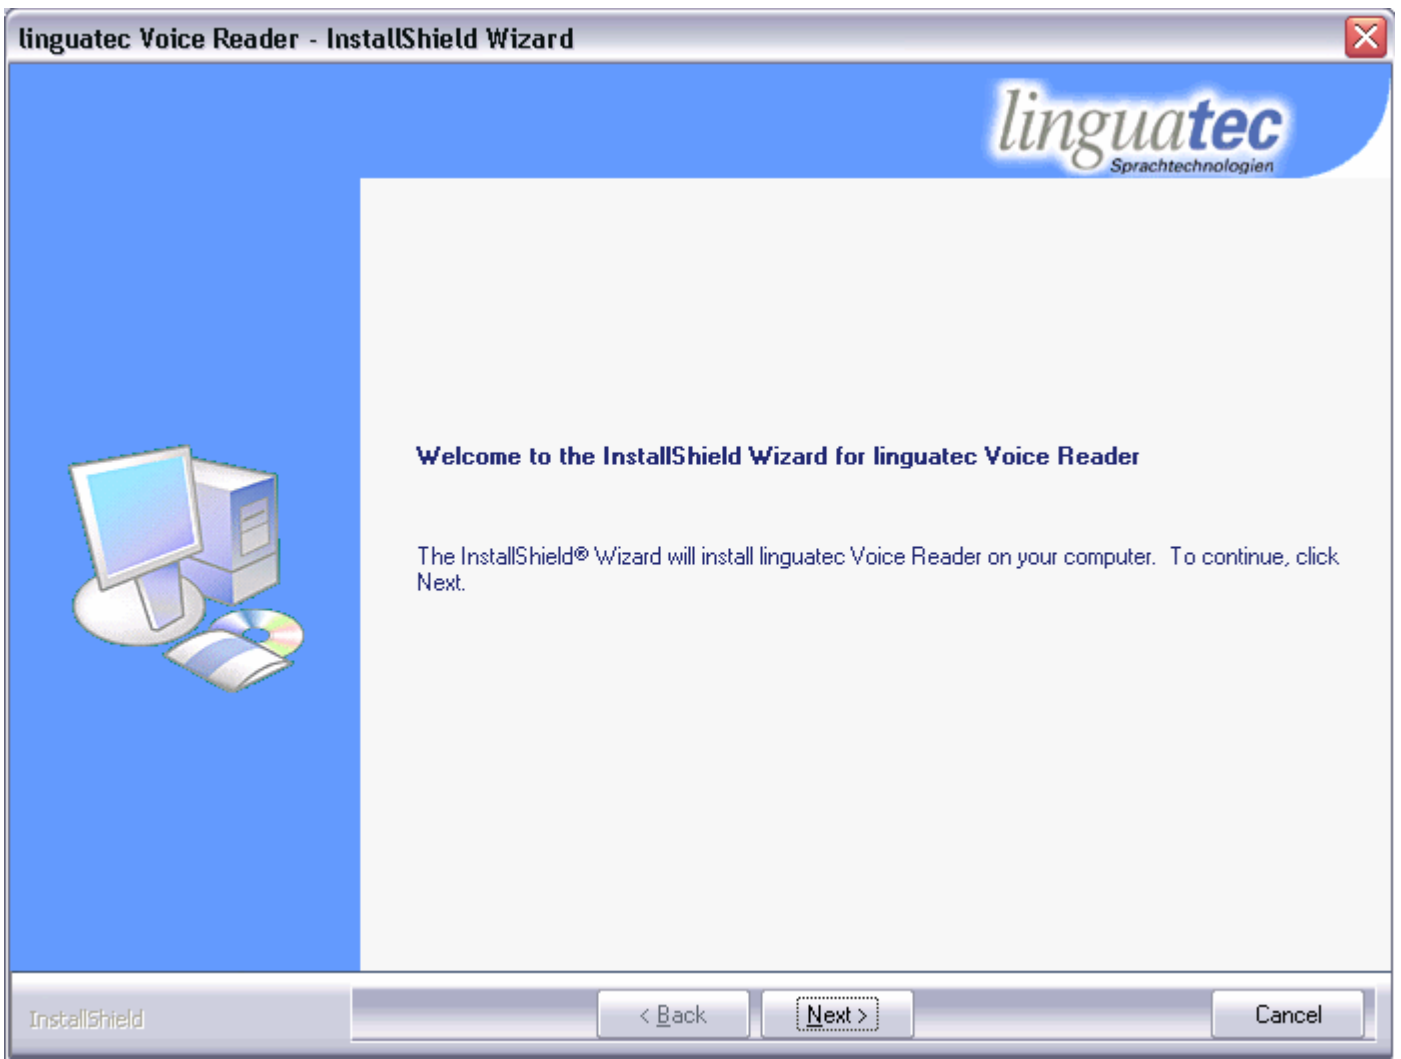

Check your entry and then click "Next".

Now click "Complete".
Setup then starts automatically.

Select the required language and click "OK".

Click "Next".

linguatec Voice Reader - InstallShield Wizard

License Agreement
Please read the following license agreement carefully.

Software license agreement

Please install the program only after you have carefully read through this software license agreement. By installing the software, you agree to the terms and conditions of this software license agreement.
