

Personal Translator 2008 Net

Sales arguments

- **Excellent translation technology** with highest user comfort
- Basic package contains **5 licences** for use in business networks
- **High ROI of up to 500%** and more, with fast return
- **61 of the Top FT 100 European Companies** already rely on Personal Translator

Outstanding translation quality, identical to PT Professional

- Unique **SmartTranslation™** technology for excellent translations
- **SmartAnalyze™** for best results, especially with long and complicated sentences
- **SmartCorrect™** for a translation document free of typos and spelling errors, as "nobdoy is perfect"
- **Neural Transfer** to help translate words with several meanings according to their context, i.e. is a "bill" a legal act or an invoice?
- **SmartMemory™** for time saving re-use of translations already completed

Client-server architecture

- Easy **central installation** of the client versions
- **Dynamic user licences**
- Uniform **company terminology** by central administration of dictionaries
- **Increased efficiency** by simultaneous access of all users to shared resources

Integration

- Translate directly in **MS Word, Excel, Outlook, and PowerPoint**
- Professional translation of **PDFs and websites**
- Natural sounding **speech output** to read out foreign language and English texts with attractive speaker
